

THE PROCESS >>

Maximise your university experience
Consolidate your learnings; How to apply your learnings; Discuss real examples of where concepts learned have been used.

Provide students with context around the IT Industry.
What's happening in Adelaide and globally; Find out what career pathways exist.

Year 1 of Chamonix Mentoring Program

Start
Enter 2nd or 3rd university year

Gain business context
Why organisations invest in IT; Delivering business benefits.

Year 2 of Chamonix Mentoring Program

Placements & internships
Apply for placements & internships with Chamonix Companies (Chamonix, exposé, SecMatters, Cortex); work on real projects with real people.

Prepare for work
Leverage your experience and identify opportunities to extend university projects; Build your profile and marketability.

Life on the job
How to work well in a team; Discuss challenges faced & available options; Moving beyond the graduate title.

Chamonix graduate opportunities
Chamonix offer a range of graduate opportunities that extend for the first 2 years of employment.

Post-University Employment

Explore your options
Review IT roles and student aspirations; Discuss different roles available (support, consulting, operational, product development)
